spiritual teacher, healer and author*

.....then look at a story wheel,
see what keeps you from that place,
see how people create their own destiny

"The story wheel is a medicine wheel. Life revolves around the rim and people run their life story here while their actual place is in the middle

We have forgotten that it's not all there in the rim! The hub of the wheel is pure love....our heart. It does not move. This is our center, the I AM."

*Ray has a style of teaching that will warm your heart and quiet your mind.
All will benefit from this evening with this gentle spirit.*
